

Rubric: Diigo List

Level	Criterion
Novice (69 – D)	The user adds URLs to their social bookmarking sites. The user does not add tags or comments. The locally stored bookmarks lack structure or organization.
Emerging (79 – C)	The bookmarks are organized into lists. Lists are appropriately named. Or the user adds the URL to social bookmarking site. The user sometimes adds either tags (keywords) or comments/notes. The resources are added regardless of their value or validity.
Developing (89 – B)	The user adds URL to a social bookmarking site. The student adds comments or Tags. Tags are mostly well constructed and suitable keywords. There is some duplication of tags e.g. singular and plural keywords. There is some limited filtering on basis of validity (attempts validation). The comments or notes are simple.
Expert (100-A)	The user adds URL to a social bookmarking site. The student adds detailed comments or appropriate keyword Tags. The comment essentially summarizes the resource. The comments are appropriate and useful. The sites are bookmarked on the basis of validity.
